Internet Service Interruption at Houston TranStar
Equipment Upgrade Expected to Last Two Hours

Officials at Houston TranStar are advising the public that the transportation management center's internet service will be interrupted from 8-10 PM Wednesday, October 29, to allow for an equipment upgrade.

The website (including the Real Time Traffic Map), email and other services will be offline until the equipment installation is complete.

Service will return to normal at the upgrade's completion.

Houston TranStar is a consortium of four government agencies that coordinate and enhance transportation and emergency management services, responding to incidents and emergencies in Harris County and beyond. Sharing their resources to serve area residents are: the Texas Department of Transportation (TxDOT), Harris County, Metropolitan Transit Authority of Harris County (METRO) and the City of Houston.
