

### **FREPORT LNG EMPLOYEES DONATE SCHOOL SUPPLIES**

Freeport LNG and its employees donated school supplies to Brazosport ISD in August 2011. “These supplies were donated by employees and a company who see the need to serve the community in which we live, work and operate. These items will be distributed to children who are homeless or highly disadvantaged in the Freeport area,” commented Robert Pate, terminal manager for Freeport LNG. “We became involved with this group of kids in 2010 through our connection with Operation Backpack, which provides meals to them during the school year and the summer. This is our second year to provide school supplies and we are proud to continue our relationship with this special group of kids.”
