

## **FREEPORT LNG RESPONDS TO FALSE INFORMATION ABOUT THE RESTART OF ITS LIQUEFACTION FACILITY**

**Houston, TX, November 11, 2022** – In response to false information circulated today about the restart of Freeport LNG’s liquefaction facility, the company provides the following statement:

**Freeport LNG has not made any public statements today regarding the restart of our liquefaction facility. Any Tweets and/or posts on Freeport LNG branded letterhead that may have been obtained or published, are reporting false information and are not legitimate, official public information from Freeport LNG.**

### **ABOUT FREEPORT LNG**

Freeport LNG is an LNG export company headquartered in Houston, Texas. The company’s three train, 15 MTPA liquefaction facility is the seventh largest in the world and second largest in the U.S. Freeport LNG’s liquefaction facility is the largest all-electric drive motor plant of its kind in the world, making it the most environmentally sustainable site of its kind. The facility’s electric drive motors reduce carbon emissions by over 90% relative to gas turbine-driven liquefaction facilities. Freeport plans to expand by adding a fourth liquefaction train, which has received all regulatory approvals for construction. Freeport was formed in 2002 to develop, own and operate an LNG terminal on Quintana Island, near Freeport, Texas. The terminal started LNG import operations in June 2008 and began LNG export operations in 2019. Further information can be found on Freeport’s website at [www.freeportlng.com](http://www.freeportlng.com).
